Average annual frequency of daily maximum deciles at four south-east Australia city stations before 1996

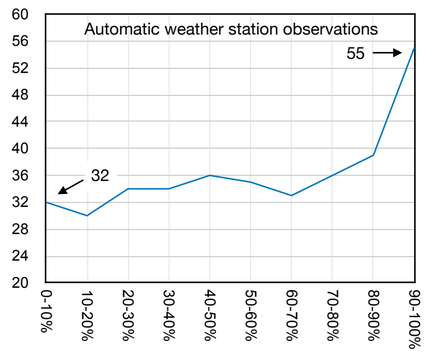

Average annual frequency of daily maximum deciles at four south-east Australia city stations after 1996

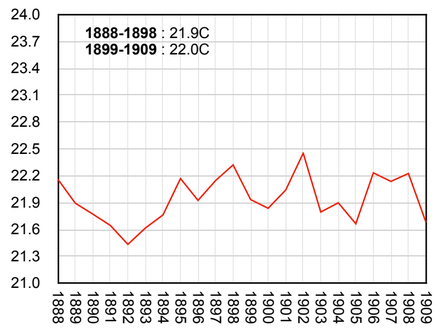

Average annual frequency of daily minimum deciles at four south-east Australia city stations before 1996

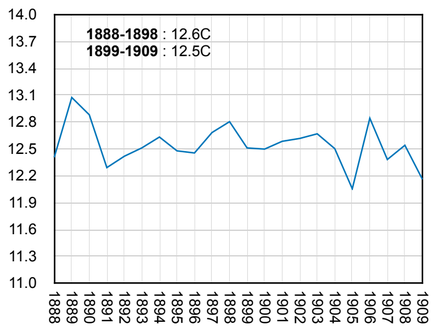

Average annual frequency of daily minimum deciles at four south-east Australia city stations after 1996

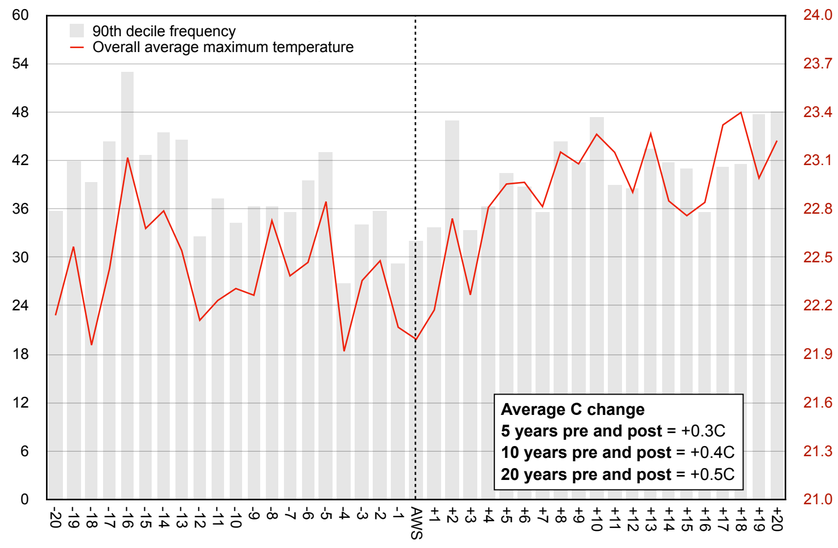

Average annual maximum temperature at four south-east Australia capital city weather stations 1888-1909

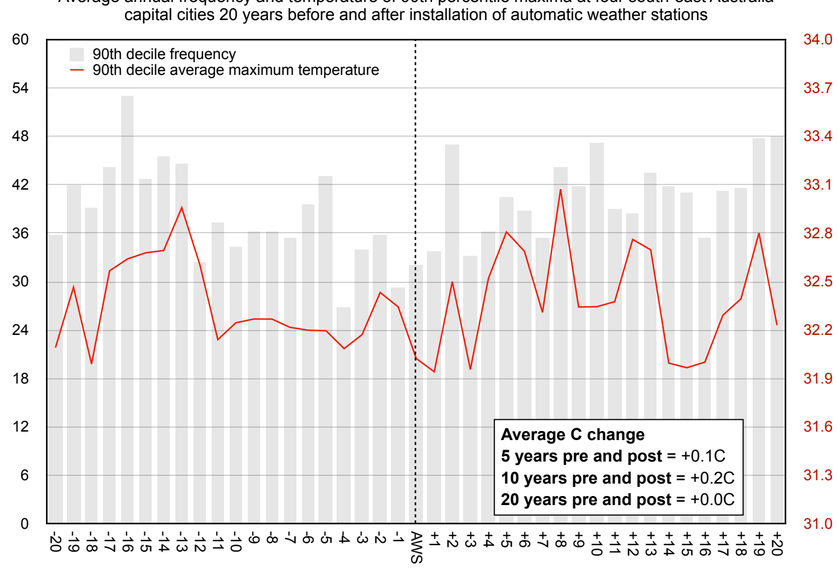

Average annual minimum temperature at four south-east Australia capital city weather stations 1888-1909

Average annual frequency of 90th percentile observations and overall maximum temperature at four south-east Australia capital cities 20 years before and after installation of automatic weather stations

Average annual frequency and temperature of 90th percentile maxima at four south-east Australia capital cities 20 years before and after installation of automatic weather stations

## 10th percentile frequency/temperature averages at Bathurst, Bourke, Cobar, Deniquin, Forbes, Gunnedah, Inverell, Robe, Wagga Wagga, Walgett and Wilcannia, <1910 to 2021
